The Exhaust Gas

KN95 Mask

- **Material** : non-woven fabric + meltblown fabric
- **Certificate** : CE, FDA, KN95 Protective Mask Inspection
- **Comply with national standard** GB2626-2006 Kn95

Characteristics:

- **Highly efficient filtration** of harmful viruses, haze , dust and pollen protection.
- **Folding style**, light and handy, ear belt in purified cotton, sweat absorption and not tight.
- **Soft inner lining** for the reduction to skin's stimulation
- **Form Fitting:** The flexible nose guard is designed to provide a custom fit to ensure a soft and comfortable fit to reduce skin irritation while the stretchable braided ear bands ensure comfort over long periods of wear time.
- **Lightweight:** The vertical folding design and overall lightweight structure make this mask easy to store and carry.
- **Provides More Protection:** The KN95 is a disposable and breathable mask designed to offer more protection than standard disposable 3-Ply masks
- **4-Ply Non-woven:** 4-Layers of protection include a Non-Woven Inner Layer, Meltblown Filter, Hot Air Fiber Cotton, and Non-Woven Outer Shell.

- Non-woven
- Meltblown Filter
- Hot Air Fiber Cotton
- Non-woven
